

More than 10 Years experience, DPC Foods developed high quality food additive in Seafood Industrial. We are positive that we can help you improve your quality and productivity by our food grade chemical.

We are a distributor of food additive in Thailand and also have our own product specialties in frozen seafood. Our food grade chemical for frozen seafood can provide you for new way to improve quality of your production to get better in the competitive market.

And now, we are entering this quality product to other producer country in Asia region.
